The Silver Room | Design Sensibilities

This 1,800-square-foot store in South Mumbai highlights its brands with its smooth, contemporary interiors. The lighting, décor, store façade, branding elements, and furniture have been envisaged with great attention-to-detail by Adil Ahmad.

grouping in sparkling gold. The walls and shelves have a crisp charcoal finish, with the balance in a clean taupe. With all elements in solids, the patterned wallpaper exclusively designed by Adil stands out like the signature of The Silver Room.

The Silver Room | Shining Through

The East-West vibe of the store is intentional. The Silver Room was designed such that each product has its own space, placed within defined rectangular or square niches, yet all these individual spaces come together as a cohesive unit.

“I began by curating a collection of eclectic vintage pieces, which then led to the creation of a unique sensory experience. This forms the perfect backdrop to showcase the extraordinary products on display in The Silver Room. I’ve managed to give the client a tantalising peek into a lost world of style and substance. The Silver Room will become an inspirational place of dreams and desire,” muses Adil.
