

The Silver Room throws open its doors

Mumbai welcomed a new destination for luxury brands this April with the opening of The Silver Room at The Trident at a glittering evening attended by the cream of the city's glitterati.

The Silver Room showcases an eclectic collection of brands including Greggio, the Italian manufacturer of tableware and bric-a-brac, Moser, makers of fine handmade products, Globetrotter, fabricators of fine handmade luggage, Linari, makers of premium fragrances. The common thread seems to run through every brand on display is an indubitable heritage and the finest craftsmanship that has built up over centuries.

Speaking on the occasion, Dilip Doshi, the CEO, Ambiar said, "This evening is dedicated to having all our dear guests grace the launch of our new concept, "The Silver Room." We are privileged and honored to have their presence and thank them for finding the time."

The interiors of The Silver Room have been tastefully curated and created by Adil Ahmad of the Palace collection, bringing about a unique touch of bespoke patterns and designs to fit the ambience of Royal-splendor.
